

# Laptops for All

3) "Imagine you're in class, and you need to do some research, but there is only one computer. Twenty-five other kids are already in line. If you had a laptop you could do your research right then and there." You pull out your laptop and start doing your research right then and there.

5) Ms. Love and Ms. Kenworthy, both teachers, say "Students with laptops can help them stay ahead of society."  
1) On average, 85% of students using laptops will save almost a whole for 35t ~~\_\_\_\_\_~~
